

Best Days

Anastacia

I've been waiting for this day to come
Hope stayed alive inside me all along
It was like a siren, a secret song
That in the darkest moments kept me strong
And now draws me onward
Out of the silence into the street
To the appointed end location where we will meet

Then just like last time I look in your eyes
And wordlessly we move into the crowd
Then in a heartbeat reach the backstreets
And take the old way to the open ground
That sacred space where we need no permission to feel alive
To where our friends wait to start the party once we arrive

These are the best days
The best days of our lives
These are the best days
And there's no end in sight
The best days of our lives

And just for one day we live forever
Our cares will fade away like trails of smoke
Caught in the whirlwind pierced by sunlight
What makes you scared will soon be just a joke
Dive down inside me, float above me, go with the flow
We will be weightless, this time it's endless
This time we know

These are the best days
The best days of our lives
These are the best days
And there's no end in sight
Sun's below the horizon
And gives way to night
We're rockin' out to our best days
And there's no end in sight

Still no end in sight
Still no end in sight
Still no end in sight

These are the best days
The best days of our lives
These are the best days
And there's no end in sight
Sun's below the horizon
And gives way to night
We're rockin' out to our best days
And there's no end in sight
We're rockin' out to our best days
There's still no end in sight
Still no end in sight
