

# Nobody Loves Me Better

Anastacia

Every minute, every hour I feel too far away  
I am missing you all over and over again  
You leave the lights some for me baby  
Until I'm getting back home again  
And you keep doing it all over and over

Wanna know how I'm on my own  
Rocking the cities, New York to Rome  
Wanna know how I do it, darling  
I'm gonna show you how I do it, darling

Everywhere I go  
I want them all to know  
That we can go on and you know, you know, you know  
Nobody loves me better  
All around the globe  
I go coast to coast  
Just to let them know and you know, you know, you know  
Nobody loves me better than you

I wanna sing to you my stories  
Like a gift from me to you  
And let you know about all the thousand  
And one times I thought of you  
And you know every word is true  
We always make it through and through  
My love goes on and on for you

Wanna know how I'm on my own  
Rocking the cities, New York to Rome  
Wanna know how I do it, darling  
I'm gonna show you how I do it, darling

Everywhere I go  
I want them all to know  
That we can go on and you know, you know, you know  
Nobody loves me better  
All around the globe  
I go coast to coast  
Just to let them know and you know, you know, you know  
Nobody loves me better than you

Oh oh oh oh oh oh  
Oh all you do for love  
Oh oh oh oh oh oh  
You make me wanna go higher, run right through the fire  
Oh oh oh oh oh oh  
Oh all you do for love  
All that I do for love  
Nobody loves me better than you

Fire, run through  
Run through the fire  
Run through  
Fire, run through  
Run through the fire  
Run through

Run through  
Run through the fire

Everywhere I go  
I want them all to know  
That we can go on and you know, you know, you know  
Nobody loves me better  
All around the globe  
I go coast to coast  
Just to let them know and you know, you know, you know  
Nobody loves me better than you

Oh oh oh oh oh oh  
Oh all you do for love  
Oh oh oh oh oh oh  
You make me wanna go higher, run right through the fire  
Oh oh oh oh oh oh  
Oh all you do for love  
All that I do for love  
Nobody loves me better than you
