Words are all we have

Take me somewhere the stars will meet the earth,
Oh won't you come out from wherever you are,
Oh you don't need to be afraid,
Oh you don't need to be afraid!

Take me somewhere the stars will meet the earth,
Oh won't you come out from wherever you are,
Oh you don't need to be afraid,
Oh you don't need to be afraid!

Take me somewhere
Take me somewhere the stars will meet the earth
Take me somewhere
Take me somewhere the stars will meet the earth

Words are all we have
