

## All Or Nothing

Anavae

There is nothing in this world  
that doesn't take a step outside  
The heart  
as long as there are two moons paired up in this sky  
If you look closely there are these  
threads hanging up in the air  
You can see them if you try  
Oh, if you care to know  
If it's time will I know  
I'm always gone  
Have I found this chemical low  
So sick of it all  
I'm out of my mind  
When will they be coming for me?  
When will I be abducted away?  
When will they be coming for me?  
When will I know?  
Who to ask when it's all going on  
I'm falling out of my own mind  
If this isn't the real world  
Then where should I look for life  
This head is no empty shell, no vacant house  
There is flesh and bone  
With a harrow stubborn soul  
and shadowed memories  
When will they be coming for me?  
When will I be abducted away?  
When will they be coming for me?  
When will I know?  
If it's time will I know  
I'm always gone  
Have I found this chemical low  
So sick of it all, oh!  
When will they be coming for me?  
When will I be abducted away?  
When will they be coming for me?  
When will I know?
