

High

Anavae

I won't take the lines you left me this time
Is it love, Is it love this time?
Humans weren't built to last
We convince ourselves that we are free, we are free
But we tread the same routine
We wake up to the same face day by day, day by day

I don't feel high
I don't feel high
I don't feel high
I don't feel high
And I wanna be

All these fantasies are bringing me down
They knock another life line out of me
I've been spending all my money
Cause I can't see beyond tomorrow morning
Nothing else seems worth doing
I don't wanna talk to nobody
Cause I'm no god at getting out the big picture

I don't feel free
I don't feel high
I don't feel high
I don't feel high
I don't feel high
And I wanna be

I don't feel high
I don't feel high
I don't feel high
I don't feel high
I don't feel high
I don't feel high
I don't feel high
I don't feel high
And I wanna be
