Anberlin

are there no shadows where you are ??
i can see everything as day
problems that you try to hide away
pushing me aside

could the winter calm come twice ??
'cause your heart seems so cold tonight ??
thirst for substance somehow isn't right
it's killing me inside

you're killing me inside
i don't wanna be where you are
i don't wanna be here even now
i don't wanna be by your side
if something isn't right
if something isn't right
this is our last goodnight
say what you will
say all that you can
words have no meaning
when i've seen where you've been
this is our last goodnight
say what you will
say all that you can
this is our last goodbye
this is where love ends
are you so naive to right and wrong ??
how could you watch innocence forgone ??
does what we've done ever really belong ??
it wasted me away

god if you can hear me out alright
please take these feelings for her inside
my chest hurts when i breathe tonight
it's wasting me away

they're wasting me away
i don't wanna be where you are
i don't wanna be here even now
i don't wanna be by your side
something isn't right
something isn't right
this is our last

this is our last goodnight
say what you will
say all that you can
words have no meaning
when i've seen where you've been
this our last goodnight
say what you will
say all that you can
this is our last goodbye
this is where love ends

this is our last goodnight
say what you will

say all that you can
words have no meaning
when i`ve seen where you've been

this is our last goodnight
say what you will
say all that you can
this is our last goodbye
this is where love ends
