

Body Language

Anberlin

To hear your body language
To hear your body language

You can't lie there
Hold it in, whether love or loss tonight
I can't find my way in
I can't seem to read your mind

I just want to reach out and touch you
To hear your body language
I just want to reach out and touch you
To hear your body language

Say say say what you need to say
Tell me everything that's running through your mind, through your mind
I I I won't stop till it's clear
Exactly who it is you see in the mirror
I don't want to go quiet, can't go dark
Silence in love will tear us apart

See the way you look at me
Can't tell me everything's fine
You keep getting closer
But you're so distant inside

I just want to reach out and touch you
To feel your body language
I just want to reach out and touch you
To feel your body language

Say say say what you need to say
Tell me everything that's running through your mind, through your mind, through your mind
I I I won't stop till it's clear
Exactly who it is you see in the mirror
I don't want to go quiet, can't go dark
Silence in love will tear us apart
I don't want to go
Say say say what you need to say
Tell me everything that's running through your mind

If you don't need words, I don't need words
But you need to know
This is for better or worse
Hell, or high water

If you don't need words, I don't need words
But you need to know
This is for better or worse
Hell, or high water
(I don't want to go quiet.)

If you don't need words, I don't need words
But you need to know
This is for better or worse
Hell, or high water
(I don't want to go quiet.)

To hear your body language

Say say say what you need to say

Tell me everything that's running through your mind, through your mind, through your mind

I I I won't stop till it's clear

Exactly who it is you see in the mirror

I don't want to go quiet (If you don't need words) can't go dark (I don't need words)

Silence in love will tear us apart

I don't want to go

(If you don't need words, I don't need words, love will tear us apart)

I don't want to go

To hear your body language

To hear your body language

To hear your body language
