City Electric

Anberlin

This life's electric
You can feel the pulse out on the street
The boys keep moving
Girls they always seem to follow the beat
This town it breathes in
A hunger deeper down it's underground
These changes, they change
Familiar faces at one time look strange

Call me crazy cause I still hold on
Call me foolish I'm a believer
We were never meant to walk alone
I don't think I'm the last of the dreamers

City's electric tonight
Burning under bright lights
The city's so active, alive
Can you feel it?
You know we're living out loud
Like we still need it
City electric
The city's electric tonight

The search is still on
Voices calling out from wilderness
Some say to let go
Some things are out of your control
I tried but I just can't stop
Tried but I can't stop
Til we progress

Call me crazy but there's still a chance
Call me foolish, an overachiever
We can be exactly who we want
I don't think I'm the last of the dreamers

Live like you feel it
Live like you need it
Live like you feel this
Live like you love
Live the life you love
The city's electric tonight
