

# Downtown Song

Anberlin

Hey up town girl  
Can you hear this down town song?  
Wrote a couple of words to tell you  
Right here is where you belong

I bet you walk the streets  
Wondering who you're thinking of  
Hope you're looking for someone to hold  
And not at all in love

And I wonder if you can relate  
To nights upon my pillow case  
Eyes wide open middle of the night  
You're the last thing on my mind

Only the lonely know  
Only the lonely know  
Only the lonely know  
What nights like these do to me, yeah

I keep asking myself  
If our hands were meant to be  
I know this town is busy,  
But I live on Public Street

We can get out of here  
If only for just tonight  
Ride like some Rollin stone  
That's forced to waste your life

And I wonder if you can relate  
To nights upon my pillow case  
Eyes wide open middle of the night  
You're the last thing on my mind

Only the lonely know  
Only the lonely know  
Only the lonely know  
What nights like these do to me

When I'm under (when I'm under)  
Is it me you're thinking of?  
With this light (get on your knees)  
I pray you're not at all in love

With someone else (with someone new)  
With something other than me and you  
Just wanna be where you are (Just where you are)  
If ever you're lonely I won't be far

Only the lonely know  
Only the lonely know

Only the lonely know  
Only the lonely know  
Only the lonely know  
What nights like these do to me, yeah

Only the lonely know  
Only the lonely know  
Only the lonely know  
What nights like these do to me
