

## Good Day

Anberlin

We don't need to whisper  
I should have turned back  
I should have known better  
Than to walk away defeated  
I'll say it tonight, I'll say it forever  
And this time I really swear I mean it  
Oh I need you now  
You're so fast asleep  
This room is safe and sound  
Will you lay here with me  
And feel it..  
I think I like today  
I think its good  
Its something I can't get my head around  
True love is something that comes easy  
Just one kiss god I swear I want to...  
I heard a pin drop and a nervous heartbeat  
Have you ever heard me scream I love you  
Oh I need you now  
The Earth fell fast asleep  
This room is safe and sound  
Will you lay here with me  
And feel it..  
I think I like today  
I think it's good  
Its something I can't get my head around (2x)  
dadah da dah dah dadadah (8x)  
I think I like today  
I think it's good  
Its something I can't get my head around (6x)
