

# I'd Like To Die

Anberlin

I want to live like no one before  
As if we'd found the world for us to explore  
Don't want to die without you by my side  
One and the same, one and the same

Let's take this slow  
Slow down  
Let's take it slow  
Slow down

I'd like to die moments after you  
If it were my choice, just seconds would do  
I couldn't live outside of what we've known  
One and the same now, so please take this slow

Take it slow  
Slow this down, for me  
Take it slow  
Make this last (Make this last)  
And take this slow (And take this slow)  
We only have one chance to get this right  
Make this last (Make this last)  
And take this slow (Take it slow)  
This may be our last chance tonight

Slow  
Slow this down, for me  
And take it slow  
Make this last (Make this last)  
Take this slow (Take it slow)  
We only have one chance to get this right  
Make this last (Make this last)  
Take this slow (Take it slow)  
This may be our last chance tonight

Make this last (Make this last)  
Take this slow (Take this slow)  
We only have one chance to get this right  
Make this last (Make this last)  
Take this slow (Take this slow)  
This may be our last chance tonight
