

## Nothing Lost

Anberlin

Scarlet letters, velvet kiss  
I'll be closer than the dress on your skin  
Watery grave, endless stream  
I'll still love you for my last heartbeat

Say nothing is ever lost  
Say now that I'm right  
Don't ever go gently down  
The right path, wrong road  
Say nothing is ever gone  
Stay here tonight  
Stand down, you're never lost  
On the right path, wrong road

Headdress feather, desolate life  
There's someone talking with the wind  
As they silently cry  
Some leave wanting (Some leave)  
But I'll never stop (I'll never stop)  
I'll still love you 'til my very coffin drops

Say nothing is ever lost (Lost)  
Say now that I'm right (I'm right)  
Don't ever go gently down  
The right path, wrong road  
Say nothing is ever gone (Gone)  
Stay here tonight (Stay tonight)  
Don't ever go gently down  
The right path, wrong

We can't stop, can't stop here  
We didn't come this far  
To only come this far  
To come this far

Say nothing is ever lost  
Say now that I'm right  
Don't ever go gently down  
The right path, wrong road  
Say nothing is ever gone  
Stay here tonight  
Stand down, you're never lost  
On the right path, wrong road

Road, road, road  
You're on a separate road (Disappear)  
Road, road, road, road  
You're on a separate road (Disappear)  
(Disappear)
