

To the Wolves

Anberlin

You wanna put two in my chest
I wanna be the one in your head
in your head, in your head
betrayed, say you love me but cast the first stone
betrayed, left me outnumbered to the wolves

To the wolves, you left me to the wolves
thought it was me and you against the world
but you left me to the wolves

who needs enemies when we've got friends
who needs enemies when we've got friends like you
who needs enemies when we've got friends
who needs enemies when we've got friends like you
whoa-oh, whoa-oh, whoa-oh, whoa-oh
whoa-oh, whoa-oh
who needs enemies when we've got friends like you

You let me believe that you're so right
but it's only in your eyes, in your eyes
deceiver, say you love me but i found lies
deceiver, left me for dead to the wolves

To the wolves, you left me to the wolves
thought it was me and you against the world
but you left me to the wolves

who needs enemies when we've got friends
who needs enemies when we've got friends like you
who needs enemies when we've got friends
who needs enemies when we've got friends like you
whoa-oh, whoa-oh, whoa-oh, whoa-oh
whoa-oh, whoa-oh
who needs enemies when we've got friends like you

To the wolves, you left me to the wolves
thought it was me and you against the world
To the wolves, you left me to the wolves
thought it was me and you against the world
but you left me to the wolves

who needs enemies when we've got friends
who needs enemies when we've got friends like you
who needs enemies when we've got friends
who needs enemies when we've got friends like you
whoa-oh, whoa-oh, whoa-oh, whoa-oh
whoa-oh, whoa-oh
who needs enemies when we've got friends like you
