

## Unstable

Anberlin

You came out of nowhere  
But who could you hold wild horse unstable  
Do you still do as you're told  
Think you're wild and you're free now  
Think you can cover me, well save yourself  
Pretend like you don't do what you're told  
Come around, let me in  
How can I talk you down from that ledge  
Unless you let me in?  
You heard when I called you  
But you still lost your way  
Are you able  
To do just what you're told?  
Taught me to trust now  
Yet you have no faith  
In yourself  
Why can't you believe in what you know?  
Come around (darling)  
Let me in  
How can I talk you down from that ledge  
Unless you let me in?  
How can I talk you down unless you come around,  
Come around, come around?  
Come around, darling  
Let me in  
How can I talk you down from that ledge  
Unless you let me in?  
Come around  
Let me in  
I'll talk you down from that ledge  
If you let me in, lovely
