

Walk Alone

Anberlin

I've seen forever and it's dressed in white
Heart stops and it feels like Heaven right here
We fall apart together you and I
No matter what the kind of pain looks like, I'm right here

So don't you walk alone tonight
It'll get better
Let these words always be your light
I promised that I would
Cry with you, hurt with you, bleed for you
So don't you walk alone tonight

If you ever feel you've gone too far
Look back and you'll see me running for you
I'm for you
With eyes deeper than my heart could know
Remember what I said when we danced slow
I'm for you
I'm for you

So don't you walk alone tonight
It'll get better
Let these words always be your light
I promised that I would
Cry with you, hurt with you, bleed for you
So don't you walk alone tonight

So don't you walk alone tonight
It'll get better
Let these words always be your light
I promised that I would
Cry with you, hurt with you, bleed for you
Cry with you, hurt with you, bleed for you

So don't you walk alone tonight
It'll get better
Let these words always be your light
I promised that I would
Cry with you, hurt with you, bleed for you
So don't you walk alone tonight
