

## Vampyresque Weddingnight (moonlight Love)

Ancient Ceremony

Dismal Winternight's Embrace  
paints Scenarios of snowcovered Graves  
Oh what Solitude in this mystic Presence of the Dead  
Through the Shadows of naked Trees  
bright silvery Moonlight forms Her fierce Silhouette  
An ardent Aura of bewitching Beauty  
Nocturnal Princess ascends  
Icon of Sin, darkened Dreams made Flesh  
Graveyardstatues scream for leaving marblestoned Shell  
to clasp at least one single Kiss of her lovely crimson Lips

"Fallen from God's Grace I am the dark Angel to catch Thee  
In my Veins I carry Treasures of what Paradise might be"

Drink my Blood to taste my Love!  
Taste my Blood and drink my Love!

Seducing me with all Thy corrupt Passion  
deepest wolfish Desires awake

I lost my Heart to Her, a Rose portrayed by sombre Artist's Hand  
I gave my Soul to Her, a Star kissed with cosmic Fire

"Thou drank my bridal Wine,  
now let me come upon Thee!"

Erotic Funeral for my mortal Soul  
Lust and Death unite to a grotesque Romance  
in our Vampyresque Weddingnight  
Celestial Choirs perform decadent Chants  
Orchids rain from black Skies  
Maidens dance in voluptuous Embrace  
charming us with ecstatic Rite
