

Carried On Lead Wings

...and Oceans

Sanctity, elevated, winged
Dealer of life and death

Transcendent manifestation of strength
Coercion in absolute silence stands

Godhead, winged nymph of Styx
Divider of life and death
Force, strength and emulations old
Golden feathers turned to lead

Demigod, source of strength and skill
Sold as tools of harm to the next one above
Primary enforcer, an extension of his will
Reason lost for the sole purpose of the decanter to refill

Heroine, in silence you stand
The only one strong enough to bind in eternal rock and unbreakable chains
Your eagle to inflict vexation and unbearable pains

Impiety, lowered, unwinged
Beheaded, abandoned in debris

Demigod, source of envy and zeal
Sold as tools of jealousy to the next one above
Secondary enforcer, another extension of his will
Reason lost for the sole purpose of their cups to refill

Sanctity, once more elevated, winged
Lead feathers turned golden
Cast in stone upon high stairs
In awe of the many

Lift her up to influence the vastness of numbers
