

The Dissolution of Mind and Matter

...and Oceans

Starvation of the claret
Deprivation of attributes
First take the speech
Then the rest of the self

As the sage blows out the candle
The husk of flesh shall be shed
As smoldering fire slowly burns out
The capsule inherits the earth

Essence and sinews
Lightkeeper and disciple
Essence and sinews
Lightkeeper and disciple

I en magisk cirkel av kraft
Där allt förvandlas byter form
Utan att en droppe förspilla
Magikern träddefram och kärlet fylls ygen

Corridors for nymphs
Tunnels for light
Decay of matter
Energy burning bright

As the runner passes the torch
The perennial flame remains lit
Inventing new ways of taking form
The limbless again gnaws its tail

I en magisk cirkel av kraft
Magikern träddefram och kärlet fylls ygen

Corridors for nymphs
Tunnels for light
Decay of matter
Energy burning bright
