

Within Fire and Crystal

...and Oceans

Carried by clouds and stars,
Through tongues of fire
towards the crystal walls
Surrounded by the splendid
and the marvelous

"Within dwellings of fire and crystal,
I saw the ends of the earth
whereon immortality rests,
and the portals were open

And I saw how the stars
of the skies come forth,
and I counted the portals
out of which they proceed,

Wrote down all their outlets;
of each individual star by itself,
according to their number, their names,
their connexions, their positions,
their times and their months,"

An invitation to approach the One

In front of thousand times thousand
Upon a pillar of sun

I,
Observer of orbs
Watcher of the spheres
Revelator of all the secrets
The Head of Days and
Sons of Man

And the stars came falling down
Painted the sky with silver stripes
In a brief moment of clarity
The stars revealed themselves
as seraphs

...and the stars fell down...
