

Not the only one

And One

Living a life of kings and queens
Building a castle out of dreams
I still remember all the names
Before the world went up in flames

And it's too late to press rewind
To satisfy a restless mind
Time flies ? you and I
We're living on a secret lie

Just before I
Just before I go
There's something you should know my dear
When all is said ? when all is done
You're were not the one

And so I stand here all accused
My defenses they are overused
I know them ? all by heart
Cause there where your's from the start

Just before I
Just before I go
There's something you should know my dear
When all is said ? when all is done
You're were not the one
