

## So Divided

### ...And You Will Know Us By The Trail Of Dead

Hear the noise back in town  
Let's gather everyone  
And go see what they're  
Up to now

Driving in, driving out  
From hotel to the bar  
All our friends are here  
But somehow we seem so divided

Hear the voice crying out  
Screaming every song  
Words that everyone  
Understands

Diving in, diving out  
The terrified crowd  
All our bands are here  
But somehow we seem so divided  
If you want to see where the fight is  
Look around

I hear the sound of a voice inside my head  
Saying things that I can't understand  
It's telling me a life may soon be dead  
I wonder from what hand

The words they say are too hard to conceive  
I try my best to never listen  
Can't you see I'm struggling to conceal  
These thoughts from everyone?

It's not that I don't care  
And I don't want to hurt you  
It's just the worst I fear  
Is coming out  
Coming out of me  
Is coming out  
Coming out of my head

You know, I've heard you say that I'm not real  
I know you think that I can't understand  
The truth is, I'm trying hard to deal  
This is not what I had planned

It's not that I don't care  
It's not that I don't love you  
It's just that I am here  
To put you out  
Put you out of your misery  
I'll put you out  
Of your misery

All of you lovers who think you're in love  
I'll put you out of your misery  
All of your children born under the sky  
I'll put you out of your misery

Venom that you can't conceive  
Is pouring out of the depths of me  
You think you're free, you've been deceived  
I'll put you out  
Put you out of your misery

You think the future is warm and bright  
But it is death and I am your destiny  
You think you'll be protected by God  
I'll put you out of your misery  
I was put down to bring you down  
And put you out
