

## Summer Calling

Andain

And when it hurts for me  
I never felt so empty  
Then the rain has its way  
Falling  
Falling

Those summer mornings  
You kissed me out of my next dream  
Then without warning  
It goes away

And then it goes  
And then it goes  
And then it...goes

Search to find you somewhere  
As winds began to sway  
Got in my car and just  
driving  
driving

Those summer mornings  
I danced inside your warm embrace  
You hear me calling  
And now you're gone
