

## Taken Away

Andain

If it's true that what's been here  
can last as mine and only  
The I will live a thousand years  
I wouldn't want to leave you lonely

Maybe I wast taken  
Maybe I was taken away

If I knew the days would pass  
With all the world before you  
The stars would by me home at last  
I'd shine them from the skies above you

This love is all i want just to know you've got it  
This love is all i want just to know you've got it  
This love is all i want just to know you've got it
