

Fool Myself

Anderson East

How many times can I play through the scene
Before it starts making a fool of me
Living through the mirrors and smoke
Think that I'm last one to know

If I can fool myself
Then I can fool anyone else
If I can fool myself
Then I can fool anyone else
Oh well

I met a physics in a grocery store
She stopped me grabbed me by the hand
Said that there're some things about you that you can't ignore
Something that you'll someday understand

If I can fool myself
Then I can fool anyone else
If I can fool myself
Then I can fool anyone else
Oh well

If I can fool myself
Then I can fool anyone else

If I can fool myself
Then I can fool anyone else
If I can fool myself
Then I can fool anyone else
So well

Oh well
