

I Hate You

Anderson East

What did this all start about?
'Cause this ain't how it started out
You should've stuck with alcohol
But you had to have that Adderall
Now you're crying in a parking lot with heels in your hands
Saying I'm the one who's not making any sense

As much as I hate you
Please don't ever leave me
Don't know what I'd do
If you ever followed through
You said that we're over, but
Can we talk when we're sober? 'Cause
Baby, I love you, baby, I love you
More than I hate you
As much as I hate you

I could find someone else if I wanted to
But I would just wind up wanting you
Yeah, you do it on purpose, you know that it's working
And I know what you mean when you say

As much as I hate you
Please don't ever leave me
Don't know what I'd do
If you ever followed through
You said that we're over, but
Can we talk when we're sober? 'Cause
Baby, I love you, baby, I love you
More than I hate you
As much as I hate you

You can keep throwing stuff
But you're still the one I want
You say that we're over, but
Can we talk when we're sober? 'Cause

As much as I hate you
Please don't ever leave me
Don't know what I'd do
If you ever followed through
You said that we're over, but
Can we talk when we're sober? 'Cause
Baby, I love you, baby, I love you
More than I hate you
As much as I hate you
As much as I hate you
