

## Interstellar Outer Space

Anderson East

I feel Saturn return  
I feel something strange  
More than my skin burning  
You're running through my veins  
Take me on your journey  
Making me levitate  
If you're gonna hurt me  
Go on and devastate  
I'd lose my mind for you

Take me to your leader, I swear I come in peace  
Make me a believer, I just need release  
Take me to Heaven, I don't wanna wait  
'Cause you're interstellar, outer space

And maybe it's only science, this rush of blood  
Mystical magic, I think that I'm in love  
High as the moon is rising  
Changing the tides and floods  
I'm giving full compliance, I'm giving up  
I'd leave this Earth for you

Take me to your leader, I swear I come in peace  
Make me a believer, I just need release  
Take me to Heaven, I don't wanna wait  
You're interstellar, outer space  
You're interstellar, outer space

Take me to your leader, I swear I come in peace  
Make me a believer, I just need release  
Take me to Heaven, I don't wanna wait  
'Cause you're interstellar, outer space  
You're interstellar, outer space
