

Without You

Anderson East

You're on a shadow of a dark
You're someone, I can't live without
Sure the sun is gonna rise
I'll be there, by your side

'Cause I won't ever leave you, won't ever go
I'll be the ground under your feet
'Cause I'll work for you baby
Fingers to the bone
Do you smile, I ain't gonna sleep
'Cause without you, there's no me

Now I'm the shadow of a dark
I was wrong, I can see it now
From the cradle to the grave
Sometimes we get lost, but sometimes we get saved

And I won't ever leave you, won't ever go
I'll be the ground under your feet
And I'll work for you baby
Fingers to the bone
Do you smile, I ain't gonna sleep
'Cause without you, there's no me

Nights are getting colder
Your love brings the heat
Put my arm around your shoulder
Please stand by me, stand by me

'Cause I won't ever leave you, won't ever go
I'll be the ground under your feet
And I'll work for you baby
Fingers to the bone
Do you smile, I ain't gonna sleep
'Cause without you, without you, there's no me
