

## Water Fall

Anderson .Paak

I can't wait for the moment you can take off  
I pray you don't have to cut my time short  
I would rather not say much  
But if I do, it will be forward  
I can't pull no punches, baby doll  
The gods have approved  
The universe is in tune with me and you  
That's why we here involved  
I'm too in love  
What you do this for?  
Your body moves and fluid motion  
Hands in two and two  
Who's it for? Ooh, it's yours  
I don't know if I'm the one you want to stay with  
But I know that I'm the only one who makes you cum

And as soon as I break down the wall  
I'm riding the wave of your waterfall  
As soon as I break down the wall  
I'm riding the wave of your waterfall  
As soon as I break down the wall  
I'm riding the wave of your waterfall

Ooh, don't touch me baby  
Don't touch me baby  
Wait, I'm okay, I'm alright  
Give me space, don't touch me baby
