

# Blind

Andi Deris

Don't want to die to see  
Nor want to live forever  
But there is something I must find  
I'm blind

I got a house and pool  
Bulit on the isle of summer  
I should be glad but still I whine  
I'm blind

No better life  
Without me breaking these chains  
No better day to wake my mind  
I'm blind  
We are the ones  
We are the children of change  
But still behave like left behind  
I'm blind

I guess I try to say  
That we may own whatever  
But we can't buy what we must find  
I'm blind

No better life  
Without me breaking these chains  
No better day to wake my mind  
I'm blind  
We are the ones  
We are the children of change  
But still behave like left behind  
I'm blind  
I don't find my signs  
I hide, I lied  
Cannot break out  
My mind is aching  
My heart is breaking  
I want to change now  
But I don't know how  
No

I don't believe fate is a thief  
There must be more we're living for  
We got to go  
We got to see  
We got to find  
I'm blind

No better life  
Without me breaking these chains  
No better day to wake my mind  
I'm blind  
We are the ones  
We are the children of change  
But still behave like left behind  
I'm blind
