

Must Be Dreaming

Andi Deris

When I close my eyes just for a while
I gaze another sphere
Like a different life not far away
But definitely not here
I must be dreaming
There I am a king of just myself
Abode to rule my life
And the Queen I love is begging me
To finally arrive
I must be sleeping

I must be dreaming
I must be sleeping
I must be dreaming
All this life
I must be dreaming
On through my life

There are bigger trees and smaller names
The first must walk behind
They help up the weak and ease their pain
The chore on the devine

I must be dreaming
I must be sleeping
I must be dreaming
All this life
On through my life
