

Blew It

Andi

So good, it was so good
Knew it wouldn't last, too good, not true
No good, you were no good
Hiding all your calls, just like boys do

Lying 'bout the way you felt
Gave me flowers from her house
How do you live with yourself?
Now you gotta pay

You blew it
Ain't no way I'm gonna go back
Funny how you think I'm like that
Could've been good, it's sad, sad, sad
Oh, you blew it
Never should've done me like that
I don't even care, I'm not mad
Good thing that you treated me bad, bad, bad
Oh, you blew it

All fake, it was all fake
Feeling so dumb, so numb, so used
Just take what you can't take
And I'm the one that has to lose

Lying 'bout the way you felt
Gave me flowers straight from hell
Thought about the lies you'd tell
Ain't no fucking way

You blew it
Ain't no way I'm gonna go back
Funny how you think I'm like that
Could've been good, it's sad, sad, sad
Oh, you blew it
Never should've done me like that
I don't even care, I'm not mad
Good thing that you treated me bad, bad, bad
Oh, you blew it

Could've had a good thing going (Could have had)
Could've had me to yourself (Yourself)
Now we're separate people and I can't believe I fell
You blew it, oh-oh
You blew it, oh-oh

You blew it
Ain't no way I'm gonna go back (Go back)
Funny how you think I'm like that (Like that)
Could've been good, it's sad, sad, sad (Sad)
Oh, you blew it
Never should've done me like that (Like that)
I don't even care, I'm not mad (Not mad)
Good thing that you treated me bad, bad, bad (Bad)
Oh, you blew it
