

## Call It Off

Andi

Sleeping with the light on every night 'cause I love fighting w  
hat I feel  
Oh, I'd do it all again  
Tell me how you love me, when I hate you, even though it's not  
real  
Turns out you're just the same

I can't look at you without wanting to  
Cave in, cave in  
Oh it's all so bright, I can't sleep at night  
I've gotta get out, I've gotta get out

I think it's time to call it off, cut you out, right now  
'Cause I keep falling  
So you can tell all your friends how bad I am, like wow  
I can't keep on falling, falling, falling, out now

Don't think I'm enough, this type of love  
It's just too much, not what I feel, oh I'd do it all again  
Kinda hate your guts 'cause they showed me conditioned love  
And it's not real; turns out you're just the same

I can't look at you without wanting to  
Cave in, cave in  
Oh it's all so bright, I can't sleep at night  
I've gotta get out, I've gotta get out

I think it's time to call it off, cut you out, right now  
'Cause I keep falling  
So you can tell all your friends how bad I am, like wow  
I can't keep on falling, falling, falling, out now

(Call it off, cut you out)  
(Call your friends, call it off)  
(Call it off, cut you out)  
(Call your friends, call it off)
