

# fu jack

Andi

How could someone like you mess me up? (Oh)  
Fourteen in the bathroom, call it puppy love  
Said "You're pretty" and I was enough (Oh)  
Four years later, I'm still scared of love

One thing led to another  
I'm cryin' in my best friend's arms  
Shoulda listened to my mother  
These boys will do you wrong

So fuck you Jack  
For breaking my heart  
You didn't put the pieces back  
First one to crush me  
Damn that shit, it hurt so bad  
But we're through with that  
I'm glad to never go back  
So fuck you Jack, fuck you, fuck you Jack, yeah

Why did no one warn me 'bout this stuff? (This stuff)  
The bathroom floor is my new best friend  
It starts to suck  
The reason that I don't believe in love  
Is the first heartbreak, it really messed me up

One thing led to another  
So naïve and immature  
Never really loved each other  
It's the ones that were never yours

So fuck you Jack  
For breaking my heart  
You didn't put the pieces back  
First one to crush me  
Damn that shit, it hurt so bad  
But we're through with that  
I'm glad to never go back  
So fuck you Jack, fuck you, fuck you Jack, yeah

Cryin', fightin'  
Never really tried to save us nothin'  
Losing my mind and  
I think that I've have had enough  
Feels like dyin'  
Wishin' that I never started somethin'  
Sick of lyin'  
Foolin' myself to love

So fuck you Jack  
For breaking my heart  
You didn't put the pieces back  
First one to crush me  
Damn that shit, it hurt so bad  
But we're through with that  
I'm glad to never go back  
So fuck you Jack, fuck you, fuck you Jack

So fuck you Jack  
For breaking my heart  
You didn't put the pieces back (Hoo-hoo, Hoo-hoo, hoo)  
First one to crush me  
Damn that shit, it hurt so bad (Hurt so bad)  
But we're through with that (Through with that)  
I'm glad to never go back  
So fuck you Jack, fuck you, fuck you Jack (Jack, Jack)  
(Bitch, haha)
