

Never Dated You

Andi

17 and fallin', said I'm older for my age
Late at night you kept on calling, like romeo in the modern age
Tellin' all my friends about ya, thinking 'bout your different
not the same
As every naive brown eyed boy I should've walked away

'Cause now, I'm afraid of letting someone in
Made me feel like I was crazy, the truth is

I never liked your friends
I fucking hated them, made you look like such a fool
The beginning to the end I just had to pretend
Wish I never dated you
Don't know how we got along I only like your mom
She treats me better than you do
I hope your life falls apart and everything goes wrong
Wish I never, never dated you

I bet that you miss me
I hope when you close your eyes
You think about what it's like to kiss me
I hope it keeps you up at night
Sayin' all your shit about me
We know you love to lie
Babe, that's just your ego talking
You ain't got no pride

I never liked your friends
I fucking hated them, made you look like such a fool
The beginning to the end I just had to pretend
Wish I never dated you
Don't know how we got along I only like your mom
She treats me better than you do
I hope your life falls apart and everything goes wrong
Wish I never, never dated you
