Over

Andi

I don't really think about you anymore
But when I do, that shit hurts
I don't really dream about you anymore
But I'm not sleeping, for once

Trust in my trust issues
They have gotten me this far
But constant reassurance
Can't mend a broken heart

Maybe I'm not over
Can't stop thinking 'bout the way you hold her
I bet that you call her when you're sober
Maybe if you treated me the way that you treated her
Yeah, we wouldn't be over
Only if you didn't leave me so hurt
Never thought that you would stoop much lower
Maybe if you treated me the way that you treated her
Yeah, we wouldn't be over

I don't really cry about you anymore
But when I do, those tears burn
I don't really think I want you anymore
But that shit's changing, now that you're with her

I shouldn't trust my issues, they don't get me very far
But tell me how to fix that, when I have a broken heart

Maybe I'm not over
Can't stop thinking 'bout the way you hold her
I bet that you call her when you're sober
Maybe if you treated me the way that you treated her
Yeah, we wouldn't be over
Only if you didn't leave me so hurt
Never thought that you would stoop much lower
Maybe if you treated me the way that you treated her
Yeah, we wouldn't be over

Maybe if you just tried harder
We wouldn't be under water
I've never loved someone harder
But it don't matter now
I hope she gets what I turned you
Into, a new version of you
The damage you just can't undo
Hung up on you somehow

Maybe I'm not over
Can't stop thinking 'bout the way you hold her
I bet that you call her when you're sober
Maybe if you treated me the way that you treated her
Yeah, we wouldn't be over
Only if you didn't leave me so hurt
Never thought that you would stoop much lower
Maybe if you treated me the way that you treated her
Yeah, we wouldn't be over
