

## Bricks

Andra Day

What we do is what we do  
Brick by brick that's how we move  
No foundation  
(Building with bricks that we were never given)

I am your safe place (safe place)  
(Filling the places we were never filled in)  
And you are my treasure  
Who can say it's not a miracle

What we do is what we do  
(Painting a picture we never envisioned)  
We built what we've never seen before  
(Forgiving when we have never known forgiveness)

Light came from the void  
(Learning to hear when no one ever listened)  
Who can say we're not a miracle  
Learning to heal when no one ever healed, healed us

She produced a miracle  
Hands of pain and grace unfold  
Empty but she filled you  
Giving you life that she was never given

And now I'm so grateful  
She made all things possible  
A firm foundation  
Believing when her world gave nothing to believe (to believe in  
)

What we do is what we do  
And brick by brick that's how we move  
New foundation  
(Built with bricks that we were never given)
