Make Your Troubles Go Away

Andra Day

Waste not all night
That's that workin' time
'Cause I want more of you
Even when I'm at your side
I wish I could take your pain
But I can help you stand
I try to bring a soothing rain
To every song and dance

'Cause staying out all night
Won't make your troubles go away
Crying, starting a fight
Won't make your troubles go away
You've been lookin' for the quick fix
And it's leaving you helpless
But I would give you all of me
To make your troubles go away

You have so much
But nothing all the same
My heart and my life
Are what I have to offer
I'll even kiss them till [?]
And to you I'll hand 'em over

But staying out all night
Won't make your troubles go away
Crying, starting a fight
Won't make your troubles go away
You've been lookin' for the quick fix
And it's leaving you helpless
But I would give you all of me
To make your troubles go away

You don't have to hide from me
I've seen the gruesome scenery
But I still have my hands out
I'll only give you everything

Staying out all night
Won't make your troubles go away
Crying, starting a fight
Won't make your troubles go away
You've been lookin' for the quick fix
And it's leaving you helpless
But I'd still give you all of me
To make your troubles go away
To make your troubles go away
Woo...
