

Midnight

Andra Day

I left my heart at midnight
Keep listening
No calling card, just stranded at the street light
It gets cold when you're all alone, but I don't feel that
No, not no more
I been holding on too long, but I let it go
When I let it go

I left my heart at midnight
No calling card, oh, just goodbye
And now I'm free, I'm lost, I'm free, I'm lost
Lost, I'm free, I'm lost

I cut all ties at twilight
Tasted new life, oh, with goodbye
Now I wander through the known, but it's seasoned
A little different
Indifference fills my nose, and I knew then
It was permanent

I left my heart at midnight
No calling card, oh, just goodbye
And now I'm free, I'm lost, I'm free, I'm lost
Lost, I'm free, I'm lost

I left my heart at midnight
No calling card, oh, just goodbye
And now I'm free, I'm lost, I'm free, I'm lost
Lost, I'm free, I'm lost
