

# Mistakes

Andra Day

Had to try the yellow grass  
I'm so glad you took me back  
Cuz only you can make me so great again  
In the ring I'm losing ground  
Knock me out I hear em count  
But you put me on my feet and push me to win

And like a broken half a charm it don't feel right  
When we are apart we make the light  
And I promise I won't mess it up this time

Please don't let me make the same mistakes yea  
Mistakes yea, mistakes  
Break the line and end it in a train wreck  
A train wreck, like always

Lost in space it's dark and cold  
A billion stars but I'm alone  
But your gravity helped me to descend  
Treading and too tired to move  
Drowning in the lake then you  
Throw your line and reel me back in again

And like a broken half a charm it don't feel right  
When we are apart we make the light  
And I promise I won't mess it up this time

Please don't let me make the same mistakes yea  
Mistakes yea, mistakes  
Break the line and end it in a train wreck  
A train wreck, like always  
We finally made it through our darkest storm  
Darkest night, baby  
And I don't wanna make the same mistakes yea, mistakes  
Mistakes

I made, me back, again, again  
I made, me back, again, again

Cuz I don't want to make the same mistakes  
Oh, oh, oh  
Like when the train hit the tracks baby  
And we broke down

We finally made it through our darkest storm  
Darkest night, baby  
And I don't want to make the same mistake yea, mistakes yea  
Mistakes

The mistakes I made wont hold me back again  
The mistakes I made wont hold me back again  
Same mistakes yeah yeah yeah
