

Lie To Me

Andra

When the rain is falling from my eyes
Lie to me, say I'm beautiful
You don't see me, you look the other way
You lie to me say I'm beautiful

I thought our love was so strong
But it didn't take me too long
To realize you're closer in my dreams

The truth that lies beyond your eyes
I'm sorry you don't realize
You're blind I'm hard to find
You promised everlasting light
But only said a clouded sight
I'll carry on through the night

If my feelings, never seem to show
Well lie to me, say I'm beautiful
I loved you blindly, I guess you'll never know
You lied to me, but I feel beautiful

I thought our love was so strong
But it didn't take me too long
To realize you're closer in my dreams

The truth that lies beyond your eyes
I'm sorry you don't realize
You're blind I'm hard to find
You promised everlasting light
But only said a clouded sight
I'll carry on through the night

Take the all days with you
And turn them into something new
Our shadows might not meet again
Our hearts might never ever beat as one
But we still stand under the same sun

The truth that lies beyond your eyes
I'm sorry you don't realize
You're blind I'm hard to find
You promised everlasting light
But only said a clouded sight
I'll carry on through the night
