

Why

Andra

If you don't love me just say
I'll never stay in your way
Nobody hurt me this way
Give me a reason to stay

I wonder, wonder, wonder why
I wonder why
I wonder, wonder, wonder why
I wonder why

Why, why do you hurt me?
Why, why does it hurt?

Can we just stop with the blame
We're turning love into hate
I know we won't be the same
We've got no reason to wait

I wonder, wonder, wonder why
I wonder why
I wonder, wonder, wonder why
I wonder why

Why, why do you hurt me?
Why, why does it hurt?
