

# God Gimmie G's

Andre Nickatina

Hold the ball 'cause you just might fumble  
Goin' about 90 baby comin' out the bay bridge tunnel  
God gimme G's on the double  
Prime time trouble  
Love to watch dope when it bubbles

You must be dreamin, get a dictionary for the meanin'  
All up in the game like Willy Demon  
Straight up schemin, ...(?) to a Motorola celly  
Make sure the weed bag is heavy  
I've never seen a vision of somethin' so rare  
It was right there and I still had to stare  
Two paint brushes for a masterpiece  
If steak's on the plate then I have to eat  
On it like a leopard, I'da chewy on you  
It's such a bazaar when you see me come through  
Vogues and Trues, Chuck Taylor shoes  
Don't ask me for no money, cause it really ain't coo

Street love(?) is crazy, sucka don't slip in the game  
Turn around baby what's your name  
Spark like a flame, do a Jesse James  
Hit you with somethin' that'll give you that pain  
But anyway, get what you got the unfriendly way  
It's like livin' and dyin' like J.F Kennedy  
Did you know if you control the chrome  
Then you control the dough, that controls the home  
Certified like a bank cheque, we'll take a rain check  
And what's next, the indo smelled like sex  
And it's fun, livin' my life on the run  
Shootin' at fuckers with a Black and Decker nail gun

I represent like a sinner, eat a breakfast meal at dinner  
Cheat just so I could be the winner  
Who cares if ya mad? Run and tell ya Dad  
I do a wrestle move then I put 'em in the crab, hah  
Put me in the date when you commit that crime  
If you get away best believe you'll shine  
(?) general reposed on your soul  
And then you start to talkin' and braggin' to hoes  
Hit the Cadillac with the beat on hit  
Quipto sips on the Hennessey fifth  
... (?)  
Forever man, gotta get the chedda, whateva
