

Pieces Of A Broken Man

Andre Nickatina

I got a habit like a crazy lady
I've been an addict since the late 80's
I got tha soul of a crack baby
I get material thangs wit the imperial game
I would hang like the chain on your neck man
You see the pieces of a broken man
They say that I can fix a broken jam
Shit whateva
I like the furious part you see the serious part
We've been closer you see pieces of my broken heart
Caught in a verse and I embraced it
Mentally and physically its something like a face lift
Take off like a space ship walk a whole place fift
Then I start to walk around like I'm fuckin famous
Broken man

Everybody say its love but all you feel is hate
Till I had enough I'm mackin like a chouma stake
I violated through traffic and tribulations
Just to put some smiles on their faces
Always being anxious city of gangsta alibi's
Face off just true lies
Everything is a marriage and your mind is a collage
I've seen through flaws
I'm a rebel wit out a pause define laws
Will I define raw in wicked ways
I caught up of how I'm livin today
Put away the stress and I can smile
This is happy as I am
You know this is forever
Except the pieces of a man

You can see tears 'cause of broken wings
God I let the weed, the greed, and the gs get the best of me
And yo rap for the rest of me
Its like I already faild in khans eyes its my destiny
I cookin soup for the recipe
The 4 corners the weed smoke its almost depressin me
My P.O is straight up supressin me
She know I'm been ballin forever so she be actin like a referee
I'm kamakaze driven
And this is how I'm livin
I'm like a shark if I start swimmin then the partys endin
I like that coco pimpin
I wear jifty linen
I like to cheat up in the game if I ain't clearyly winnin
But if you drink the 7th sign focus on the filthy cat
Please forgive me god of khan if I don't last
Hit the car crash and I fly away
A broken man wit broken hands and a broken land
Its hocus pocus man
The vision is token man
Will you fix a broken jam
Shit whateva
