

Numbers

Andrew Belle

You're right about one thing
I don't know where you're at
The gun that we're jumping
Some shots you can't take back, back, back

Where do you fall
What's your number
You're coming up something else
What's your number

I'm running towards trouble
I wanna make mistakes
Your hair is on fire love
Fear is a give and take

Where do you fall
What's your number
You're coming up something else
What's your number

Draw me a circle
Where's the angle
Hey I'm coming up something else
What's your number
What's your number
