

Bad Dude

Andrew Garcia

It was me and her in the situation
We took some shots, had that conversation
One drink to another next thing you know we was on each other
We was messing around

But she caught me slippin'
I'm not a bad dude, I'm not a bad dude
But she caught me slippin'
I'm not a bad dude
Just made a mistake

She's on it, she's with it
If only I could stay committed
I'm taking my chances
Only for one night I have it [2x]

Sweat dripping down my face
All cause I want that case
Caught in the situation (damn, that situation)
I just can't take it, too intoxicated
This girl got me faded, oh no

But she caught me slippin'
I'm not a bad dude, I'm not a bad dude
But she caught me slippin'
I'm not a bad dude
Just made a mistake

She's on it, she's with it
If only I could stay committed
I'm taking my chances
Only for one night I have it [2x]

I'm not a bad dude (I'm not a bad dude) [4x]

She's on it, she's with it
If only I could stay committed
I'm taking my chances
Only for one night I have it [3x]
