

Cold World

Andrew Garcia

It's been a journey just to get what I came from,
No one will ever understand,
Broke my back just to get greeted by failure,
Nothing in the palm of my hand,
Prayed to God just to give me an answer,
Broke my faith to get the truth,
And I'm serious, serious, serious for truth,
And I'm serious, serious, serious for truth,

It's a real cold world,
No one ever gets a second chance,
You know you've got to make it last,
You know you've got to make it last,

It's a real cold world,
No one ever gets a second chance,
You know I gotta make it last,
You know I gotta make it last,

Worked my ass off just to get what I came from,
No one will ever understand,
Took a chance, now I'm seeing the answers,
Got the world sitting here in my hand,
Prayed to god just to give me an answer,
No regrets, so much to prove,
And I'm serious, serious, serious for truth,
And I'm serious, serious, serious for truth,

It's a real cold world,
No one ever gets a second chance,
You know you've got to make it last,
You know you've got to make it last,

It's a real cold world,
No one ever gets a second chance,
You know I gotta make it last,
You know I gotta make it last.
