

Undone

Andrew Garcia

She says she wanna lay you down
She says she don't want to play around
She says she wanna get to it
She about to prove it
And I'm about to lay her down

Move the pedals off the bed tonight
Put you in the mood don't need to try
Cause you ready, I'm ready, you know I rock steady
You know it's gonna feel right

I can't wait for you
To reach the limits, to reach the limits
You won't need to move
You gonna get it I'll let you finish
You had me undone
We elevated and I'm addicted (for you)
I can't wait for you
And I don't think you ready for it

In a daze I put her in
She can't believe it the way I treat it
She knows it's real the way I made her feel (yeah)
And she knows she knows I know better

Move the pedals off the bed tonight
Put you in the mood don't need to try
Cause you ready, I'm ready, you know I rock steady
You know it's gonna feel right

I can't wait for you
To reach the limits, to reach the limits
You won't need to move
You gonna get it I'll let you finish
You had me undone
We elevated and I'm addicted for you
I can't wait for you
And I don't think you ready for it
I don't think you ready for it [x3]

Just a ride of your touch I can't let it go
Just a taste of your lips make me wanna know
If you down for more
Round 2 we can take it to the floor
And the moon light is fading
We don't need no explaining
You no there's no complicating
Cause oh, oh, oh it's on
And there's no need

If I can't wait for you
To reach the limits, to reach the limits
You won't need to move
You gonna get it I'll let you finish
You had me undone
We elevated and I'm addicted for you
I can't wait for you

And I don't think you ready for it
