

Almost Love

Andrew Gold

I've had many kinds of dreams before
On how love's s'posed to be
Still, with all the days I've known
It never seems like dreams to me
Guess it's hard to find a love that's strong
In these unfaithful times
Woh, almost love is the best that I can find

And it's almost love
That pulls us together
It's almost love
That draws us apart
It's almost love
(That) keeps me hangin' on forever
It's almost love
In my heart

I'll be happy to find love
I will when my time comes
But I must admit I'd like to cure
The thing I'm lonely from
Yes, there's one thing that I'm certain of
There's one thing that I've found
Woh, almost love is the closest thing around

And it's almost love
That pulls us together
It's almost love
That draws us apart
It's almost love
(That) keeps me hangin' on forever
It's almost love
In my heart

Wa-hooooo
Wa-wa-hooooo
Wa-hooooo
Oh-wa-hoooo
Wa-oh wa-oh

Well, it's one thing to be happy
It's one thing to feel bad
And the time it takes to change
Is just the time when you get mad
But the time when you find love will be
The day when you are glad
And then almost love won't be the best you ever had

And it's almost love
That pulls us together
It's almost love
That draws us apart
It's almost love
(That) keeps me hangin' on forever
It's almost love
In my heart

Yes, it's almost love
That pulls us together
It's almost love
That draws us apart
It's almost love
(That) keeps me hangin' on forever
It's almost love
In my heart

Yes, it's almost love
In my heart
