

Come Down to Me

Andrew Gold

Turn around, turn around, tell me, what do you see?
All the sun in your eyes is too bright to see me
When you're flyin' away
Somethin' tells me to say
I want you to be free
But, oh, my love
Come down to me

I remember the time that I heard you say
We are part of the same like an ocean's own wave
Now you're movin' away
Like a boat from the bay
Rollin' out to the sea
But, oh, my friend
Don't forget me

In the mornin' I rise
To meet you in the evenin'
You drift away
By the star's lonely gaze
I remember the days
Oh, darlin', come down to me

Though you're driftin' away, you are easily seen, whoa
And the past that you've left is as hard as it's mean
Though you're tryin'
To leave all the victims and thieves
Turnin' round is not free
So, oh, my friend
Come down to me

In the mornin' I rise
To meet you in the evenin'
You drift away
By the star's lonely gaze
I remember the days
Oh, darlin', come down to me

In the mornin' I rise
To meet you in the evenin'
You drift away
By the star's lonely gaze
I remember the days
So, darlin', come down to me
Come down to me, mmh
Come down to me
