

# One of Them Is Me

Andrew Gold

There's a girl I know  
So far away from here  
She's got a lover  
She's got a friend  
And she's got someone who's always near

One of them is me  
And I don't know who  
One of them is me  
And I don't know who  
Oh, look into my eyes  
And tell me what you see  
One of them is me  
And I don't know who

She's got so many men  
Who long to love her  
To feel her body next to theirs  
Or just to understand her

One of them is me  
And I don't know who  
One of them is me  
And I don't know who  
Oh, look into my eyes  
And tell me what you see  
One of them is me  
And I don't know who

Oh, come to me  
Sweet baby  
I'm in love with you  
And I can't stop it now  
You're a part of me  
Oh, save me  
Oh, save me from you  
What can I do?

She loves a man  
Who makes her feel lonely  
She loves a man  
Who makes her feel so guilty

One of them is me  
And I don't know who  
One of them is me  
And I don't know who  
Oh, look into my eyes  
And tell me what you see  
One of them is me  
And I don't know who

Oh, look into my eyes  
And tell me what you see  
One of them is me  
And I don't know who
